

NightSearcher 2022

Lighting The Future

Established in 1989, NightSearcher continues to push the boundaries of lighting technology in its quest to design and manufacture the best portable rechargeable lighting systems on the market. Offering unsurpassed quality combined with fully supported reliability, our diverse range has something to offer for a variety of professional applications and environments. Utilising the latest in Lithium rechargeable battery technology, we offer maximum runtimes without the need for multiple batteries.

By any measure, 30 years is a long time in business but we feel like the journey has only just begun. As UK manufacturers we are always learning and will continue to embrace the latest engineering and innovation to make our products even better. The best product ideas and suggestions often come from our customers - please continue to talk to us, we will always listen! Nightsearcher is also invested to play its part in the global push to address concerns for the climate and environment. Our "Think Zero" and "Think Green" ethos highlights the benefits of portable rechargeable technology and the vital role it has and will play for years to come. Zero emissions, Zero cables, Zero noise all encompass our product range in the push for a greener, safer environment for us all.

We are in it for the long run and we thank all of our loyal customers for their continued ongoing support. Nightsearcher will continue to light the future!

NightSearcher's professional products are carefully designed and manufactured to the highest standards to ensure the reliability and durability our customers need. This is why we offer a 3-year standard warranty on all manufacturing defects and 1-year warranty on all rechargeable batteries from the date of purchase. *The warranty can be extended to 5 years that covers defects in manufacturing on all NightSearcher products.

Visit <https://nightsearcher.co.uk/en/warranty.html> to find out more.
